## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 7-12, 14-16 and 19-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Gill (5,381,707). Gill discloses an extensible jack handle having a base (50), comprising a first elongated member (20), made of metal, having two ends and a plurality of side surfaces corresponding to a length of the first elongated member, the first end positioned to engage a device to be operated, the first elongated member further comprising an expanded portion of increased width (20) and a narrow portion of reduced width (23) relative to the expanded portion (see fig 6), the first elongated member comprising at least two receptacles (26 and the opening at the end of the member), for receiving a restricting device (30) through a side surface of the first elongated member. Gill further discloses a hollow, metal second elongated member (20) having a first and second end wherein the first end had an outer face (see fig. 6), the second elongated member positioned to receive the first elongated member, the second elongated member further including a restricting means having a width that is narrower than the width of the expanded portion of the first elongated member and restricts the expanded portion of the first elongated member from fully passing through both ends of the second elongated member, wherein in order to prohibit movement in an axial direction, the first end of the second

elongated member is configured to be retained along a surface (24) of the outer end face by the restricting device (30).

### *Response to Arguments*

3. Applicant's arguments with respect to claims 1-5, 7-12, 14-16, 19 and 20 have been considered but are moot in view of the new ground(s) of rejection.

### *Conclusion*

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
